Dear Colleagues,

In connection with the call for new members and officers of GGN Executive Board, I would like to express my full support to Prof. Nickolas Zouros' (Ind-001) candidature for the Secretary General of GGN. Prof. Zouros is one of the developers of the idea of Global Geopark and has made immense contribution to the Global Geoparks Network since the very beginning. The election of Prof. Zouros as Secretary General of GGN will certainly benefit the GGN big family. His expertise and enthusiasm will help GGN running successfully.

Sincerely
