SUPPORT LETTER

On behalf of the Latin America and Caribbean Global Geoparks Network (GeoLAC), we are honored to express our full and unwavering support for **Professor Dr. José Luis Palacio Prieto**, esteemed member of the Advisory Committee of Mexico and Scientific Coordinator of the Mixteca Alta UNESCO Global Geopark, as a candidate for the position of **Chair of the Advisory Committee**.

We firmly believe that Dr. Palacio's outstanding qualifications, leadership, and longstanding dedication to the Global Geoparks movement make him an ideal candidate for this important role. With more than two decades of tireless work promoting the Geoparks initiative in Mexico and throughout Latin America, Dr. Palacio has played a fundamental role as one of the founding members and key advocates of the GeoLAC Network.

His exceptional academic credentials and internationally recognized expertise in Geoheritage and Geoparks further reinforce our confidence in his ability to serve effectively and strategically as Chair. We are certain that under his guidance, the Advisory Committee will continue to advance the mission and objectives of the Global Geoparks Network.

We respectfully urge the relevant authorities to consider his candidacy with the seriousness and recognition it merits.

Sincerely,

Emmaline Montserrat Rosado González
Coordinator
Latin America and Caribbean Global Geoparks Network (GeoLAC)
