

Geopark Reporting

Geopark Annual Reports are introduced as useful tool to present the operation and activities of the individual UNESCO Global Geoparks and the Global Geopark Network.

They are public documents, collected and assessed by the Global Geoparks Network.

The Annual Reports are used for the objective assessment of the operation and activities of the individual Geoparks and their Geopark Networks.

Geopark Reporting is based on Templates to achieve homogeneous presentation of the Geopark data.

They are also used as additional source of information for the Geopark Revalidation exercise.

Geopark Annual Reports

A Geopark Annual Report is a yearly publication that all UNESCO Global Geoparks are required to share with the Global Geoparks Networks, its Regional / National Networks and GGN Members, outlining their operational and business performance as well as financial status.

It reviews the past year's activities, includes future perspectives, and provides comprehensive financial and operational data.

A Geopark annual report contains the following sections:

- **GEOPARK IDENTITY**

Geopark name, country, regional Network:

Geopark space (in Km²)

Year of recognition / Year of last re validation

- **GEOPARK FIGURES**

Geopark staff

Geoscientists working at a daily basis in the Geopark

Budget

Number of visitors

Number of school classes participated in Geopark educational activities

Number of Geopark capacity building activities

Number of Geopark press relises

- **GEOPARK ACTIVITIES**

- **MAIN ACHIVEMENTS**

- **CONTRIBUTION TO GGN and REGIONAL / NATIONAL GEOPARK NETWORK**

GGN National Network Annual Reports

A Geopark National Network Annual Report is a yearly publication that all National Geopark Networks (Bodies) are required to share with the Global Geoparks Networks, its Regional / National Networks and GGN Memembrs, outlining their operational performance.

A National Geopark Network Annual Report contains the following sections:

- NATIONAL NETWORK (BODY) IDENTITY and YEAR of ESTABLISHMENT
- MEMBERS
- ACTIVE APPLICATIONS
- MEETINGS
- ACTIVITIES
- RELATIONSHIP WITH UNESCO NAT COM and NATIONAL AUTHORITIES

GGN Regional Network Annual Reports

A Regional Geopark Network Annual Report is a yearly publication that all Regional Geopark Networks are required to share with the Global Geoparks Networks and its Members, outlining their operational performance.

A Geopark Regional Network Annual Report contains the following sections:

- REGIONAL NETWORK NAME and YEAR of ESTABLISHMENT
- STRUCTURE / COORDINATORS / ADVISORY COMMITTEE / MEMBERS
- WORKING GROUPS
